

Honda CBR Fireblade 1000

Christmas Deal 2025

The Honda CBR Fireblade 1000 is an iconic superbike that has set the benchmark for power, precision, and agility. Renowned for its lightweight chassis, razor-sharp handling, and high-revving inline-four engine, the Fireblade is a favorite among performance riders and collectors alike.

This particular CBR Fireblade 1000 has 32,516 km on the clock and comes with French registration papers. It has had only two owners and has been meticulously maintained, including a major engine overhaul at 25,000 km by Honda, which included new fork seals. Additionally, it has recently installed Brembo brake discs and pads on the front wheel, ensuring top-tier braking performance. Security markings have been applied to all key components, providing added protection

At VintageMotorcycles.nl, we believe in full transparency, every bike is sold in the condition it's in at the time of sale.

Some still wear their original tyres or brake lines, while others have already been updated. If you'd like additional work such as a service inspection, new tyres, or replacement brake lines, that's always possible at an extra cost. This way, you decide how original — or how ready — your next classic should be.
