# Honda BMW R 100 RS

# Honda BMW R 100 RS

The 1978 BMW R100RS is a true icon, far ahead of its time. With its distinctive fairing and pure mechanical feel, it remains one of the most admired classics in BMW's long history. Since 1923, BMW has been known for engineering excellence and a unique riding experience — qualities that this R100RS embodies in every detail.

This example, sourced from Germany and showing 68,000 genuine kilometers, perfectly reflects why the R100RS earned its legendary status. Its elegant shape, timeless silhouette and unmistakable character make it a desirable machine for collectors and enthusiasts alike.

We hand-select our classics with passion and expertise. This BMW is no exception: honest, beautifully preserved and ready for a new owner who shares our love for iconic BMW machines

At VintageMotorcycles.nl, we believe in full transparency, every bike is sold in the condition it's in at the time of sale.

Some still wear their original tyres or brake lines, while others have already been updated. If you'd like additional work such as a service inspection, new tyres, or replacement brake lines, that's always possible at an extra cost. This way, you decide how original — or how ready — your next classic should be.
