

BMW K1

BMW K1

The BMW K1 is one of the most distinctive motorcycles BMW has ever produced. Introduced as a bold design and technology statement, the K1 has since become a true cult classic. This **1991** example features the iconic **red and yellow colour scheme**, instantly recognisable and highly sought after by enthusiasts worldwide.

With just **13,388 kilometres**, this BMW K1 represents a particularly attractive example for collectors and riders alike. Frame number **6376295.K.1.** and registration **ML-09-HB** are present.

Developed as a flagship model at the end of the 1980s, the BMW K1 was designed to combine advanced aerodynamics with long-distance comfort. Its unique styling and stable riding characteristics still make a strong impression today, both on the road and as part of a collection.

At [VintageMotorcycles.nl](https://www.vintagemotorcycles.nl), we believe in full transparency, every bike is sold in the condition it's in at the time of sale.

Some still wear their original tyres or brake lines, while others have already been updated. If you'd like additional work such as a service inspection, new tyres, or replacement brake lines, that's always possible at an extra cost. This way, you decide how original — or how ready — your next classic should be.
