

# Egli Kawasaki 900

The 1976 Egli Kawasaki 900 is a remarkable fusion of Japanese engineering and Swiss craftsmanship. Fritz Egli, renowned for his high-performance motorcycle frames, collaborated with Kawasaki to create a machine that offers both exceptional power and superior handling. This particular model has 9,181 km on the odometer, reflecting its well-preserved condition.

This 1976 Egli Kawasaki 900 represents a unique opportunity to own a piece of motorcycling history, combining the reliability of Kawasaki with the bespoke engineering of Egli. Its low mileage and exceptional condition make it a valuable addition to any collection

At VintageMotorcycles.nl, we believe in full transparency, every bike is sold in the condition it's in at the time of sale.

Some still wear their original tyres or brake lines, while others have already been updated. If you'd like additional work such as a service inspection, new tyres, or replacement brake lines, that's always possible at an extra cost. This way, you decide how original — or how ready — your next classic should be.
