## Honda CBX 1000 Custom build

We proudly present this unique **custom-built 1983 Honda CBX 1000**, created by **Moto Adonis** and crafted entirely to the client's vision. The engine has been fully **rebuilt by Six Center**, ensuring excellent performance and reliability. Its blue-green finish highlights the elegant lines of the legendary CBX series, celebrated worldwide for its iconic six-cylinder heritage.

With only **510 km**, complete papers, invoices, two drop keys and the original yellow license plate, this is a rare opportunity. The sound is absolutely thrilling, and a YouTube video is available to experience it yourself

At VintageMotorcycles.nl, we believe in full transparency, every bike is sold in the condition it's in at the time of sale.

Some still wear their original tyres or brake lines, while others have already been updated. If you'd like additional work such as a service inspection, new tyres, or replacement brake lines, that's always possible at an extra cost. This way, you decide how original — or how ready — your next classic should be.
