

Honda CBX 1000 Pro-Link

Honda CBX 1000 Pro-Link

Some machines don't need an introduction—you feel them instantly. This **1983 Honda CBX 1000 Pro-Link** is one of those rare icons. Finished in timeless silver and originally delivered in Germany, it represents Honda at its most daring and innovative.

At its core lies the famous 1047 cc inline six-cylinder engine. Celebrated for its smoothness and unmistakable sound, it remains one of the most charismatic engines ever built. With the introduction of the Pro-Link rear suspension, Honda combined performance with comfort, creating a machine that was remarkably refined for its era.

This CBX is more than a classic—it's a story on wheels. A motorcycle for enthusiasts who value engineering, heritage and emotion over trends. We're proud to offer a true Honda legend, ready for its next chapter

At VintageMotorcycles.nl, we believe in full transparency, every bike is sold in the condition it's in at the time of sale.

Some still wear their original tyres or brake lines, while others have already been updated. If you'd like additional work such as a service inspection, new tyres, or replacement brake lines, that's always possible at an extra cost. This way, you decide how original — or how ready — your next classic should be.

Motorcycle details
