Kawasaki H2 750

The Kawasaki H2 750, famously known as the “Widowmaker,” is one of the most iconic superbikes of the 1970s. With its three-cylinder, two-stroke engine producing an extraordinary amount of power, the H2 750 quickly earned its nickname due to the raw, untamed performance that made it both thrilling and challenging to ride. Finished in the striking Candy Orange color, this bike represents the peak of Kawasaki’s engineering and design from the era, and it remains a highly sought-after collector’s item today. This particular H2 comes with Finnish registration papers, making it ready for registration and use in the EU and abroad.

In its time, the Kawasaki H2 750 was a beast on the streets, offering mind-blowing speed and power that left competitors in the dust. Its aggressive styling, combined with cutting-edge technology, made it the ultimate superbike of the 70s. However, its incredible power and unpredictable handling also earned it the “Widowmaker” moniker, a reminder of just how wild and powerful this machine truly was.
