

Kawasaki RS Z2 750

Kawasaki RS Z2 750

The Kawasaki RS Z2 750 from 1975 is one of the most legendary Japanese motorcycles of the 1970s. Produced exclusively for the Japanese domestic market, the Z2 was Kawasaki's answer to licensing restrictions, offering a 746cc engine that closely resembled the iconic Z1. Today, it is an extremely rare collector's item outside of Japan.

This example has been fully restored to top condition, including new paintwork and a complete engine overhaul. Since its restoration, the bike has only run 565 km, making it practically like new. Some aftermarket parts have been fitted, as original Z2 components are almost impossible to source.

The bike comes with Belgian registration papers and is currently located in the Netherlands. A unique opportunity to own one of the rarest Kawasaki classics, perfectly restored and ready to be cherished

At VintageMotorcycles.nl, we believe in full transparency, every bike is sold in the condition it's in at the time of sale.

Some still wear their original tyres or brake lines, while others have already been updated. If you'd like additional work such as a service inspection, new tyres, or replacement brake lines, that's always possible at an extra cost. This way, you decide how original — or how ready — your next classic should be.
