

Matchless Model H Sidecar (1920)

Vintage Power with Original Patina – Matchless Model H Sidecar (1920)

Step back in time with this extraordinary 1920 Matchless Model H, an authentic piece of motorcycle history. Fully original, unrestored, and still in running condition – it's the kind of machine that speaks volumes without saying a word. The robust 976cc JAP V-twin side-valve engine, paired with Matchless' own 3-speed gearbox, makes it one of the most capable sidecar combinations of its era.

Built specifically as a sidecar outfit, the Model H features a sprung sidecar wheel, swingarm rear suspension, and electric lighting – an advanced setup for its time. Additional period features include fully enclosed chains, interchangeable wheels, pressed steel running boards, leg shields, and a folding luggage rack with a spare wheel. A true collector's item for the passionate enthusiast or museum.
