Moto Guzzi 500 GT Norge

The 1928 Moto Guzzi 500 GT 'Norge' is a landmark in motorcycling history, celebrated for its innovative design and remarkable endurance. Named after the 'Norge' airship, the first to fly over the North Pole, this model embodies a spirit of adventure and engineering excellence.

Equipped with a 498.4cc single-cylinder engine, the GT 'Norge' was designed to tackle challenging terrains, making it a favorite among long-distance riders of its era.

This particular motorcycle comes without a kilometer counter, which was common for bikes of this period. Notably, it includes Dutch registration papers, adding to its uniqueness and value for collectors

At VintageMotorcycles.nl, we believe in full transparency, every bike is sold in the condition it's in at the time of sale.

Some still wear their original tyres or brake lines, while others have already been updated. If you'd like additional work such as a service inspection, new tyres, or replacement brake lines, that's always possible at an extra cost. This way, you decide how original — or how ready — your next classic should be.
