## Suzuki GS 750

The 1978 Suzuki GS 750 Caferacer is a tribute to pure, unfiltered mechanical passion. Its air-cooled 748cc four-cylinder engine delivers around **72 hp at 8500 rpm**, offering the smooth and reliable performance that made the GS series legendary.

Weighing 223 kg dry and known for its balanced handling, this GS 750 remains a machine that begs to be ridden. The Caferacer styling enhances its sharp, minimalist and motorsport-inspired look—a true icon that feels just as alive in 2026 as it did in 1978

At VintageMotorcycles.nl, we believe in full transparency, every bike is sold in the condition it's in at the time of sale.

Some still wear their original tyres or brake lines, while others have already been updated. If you'd like additional work such as a service inspection, new tyres, or replacement brake lines, that's always possible at an extra cost. This way, you decide how original — or how ready — your next classic should be.
