## Triumph Daytona 955i

The Triumph Daytona 955i is a true British icon from the early 2000s. With its distinctive ochre yellow color and unmistakable triple engine character, this 955cc sports bike offers a raw yet refined riding experience. Built for speed but comfortable enough for longer rides, this example with 62,221 km is well-preserved and ready for its next adventure. A great choice for collectors or riders who want something different from the Japanese crowd

At VintageMotorcycles.nl, we believe in full transparency, every bike is sold in the condition it's in at the time of sale.

Some still wear their original tyres or brake lines, while others have already been updated. If you'd like additional work such as a service inspection, new tyres, or replacement brake lines, that's always possible at an extra cost. This way, you decide how original — or how ready — your next classic should be.
